COMPETITIVE PRICE CHANGES

Docket No. CP2023-42

**USPS NOTICE OF CHANGES IN
RATES AND CLASSIFICATIONS OF GENERAL APPLICABILITY
FOR COMPETITIVE PRODUCTS**
(November 10, 2022)

Pursuant to 39 C.F.R. §§ 3035.102 and 3035.104, the United States Postal Service hereby gives notice of changes in rates and classifications of general applicability for competitive products. In accordance with Rule 3035.102(b) and Rule 3035.104(b), this Notice provides the Governors' Decision establishing the changes, including a statement of explanation and justification, and certification of the vote. The new prices and classification changes will take effect on January 22, 2023.

Attached to this pleading is a schedule showing new prices and classification changes incorporated into a draft of the revisions to the competitive products section of the Mail Classification Schedule. Classification changes established by this Governors' Decision are shown in legislative format.

Also being filed herewith is a non-public annex showing FY 2023 projected volumes, revenues, attributable costs, contribution, and cost coverage for each product. Additionally, in accordance with Order No. 1062, the Postal Service is filing supporting forecast data and price adjustment calculations for each affected product. An application for non-public treatment of this material is attached to this pleading, along

with a redacted, public version of the annex. Redacted versions of certain supporting materials are also being filed.

In accordance with Commission Order Nos. 1062 and 6249, the following is a list of the proposed classification changes made in this docket and a thorough explanation and justification for each change:

Consolidation of Commercial Base and Plus (PME and PM)

The Postal Service will be collapsing the Commercial Base and Commercial Plus price categories under the Priority Mail Express and Priority Mail products. One consolidated “Commercial” price category will be created. To avoid any potential confusion in contract interpretation over the next few years, the category will be labeled “Commercial (Base and Plus)” in the MCS. The Postal Service expects to remove the “Base and Plus” parenthetical at a later date, once those terms are no longer in any active contracts.

The Postal Service believes that providing a single easy-to-understand commercial price category under each product will help simplify and streamline the Postal Service’s product offerings. See 39 C.F.R. § 3040.181(a). This classification change will not result in the violation of 39 U.S.C § 3633 or associated regulations, as the Postal Service’s competitive products are still expected to cover their costs and contribute an appropriate share to institutional costs. See 39 C.F.R. § 3040.181(b)(2). Finally, the Postal Service expects this classification change will have a positive impact on users of Priority Mail Express and Priority Mail, and will have a minimal impact on competitors and the broader package market. See 39 C.F.R. § 3040.181(c). The Commercial Base and Plus prices have already been made equivalent for several

years, which was designed to transition toward a single commercial price table, which is the industry standard. Given that the prices are equivalent, maintaining separate pricing tables adds unnecessary complexity, and a more simplified product offering will be easier for customers to understand and utilize, particularly for new customers and small businesses. The Postal Service is also taking steps to ensure its larger NSA customers do not face any disruption or confusion over contract interpretation from this change.

Elimination of Priority Mail Regional Rate Boxes

The Postal Service will be eliminating the Priority Mail Regional Rate Boxes (RRBs) offering. The intent of this change is to eliminate the redundancy of RRBs with Priority Mail Cubic, save some packaging supply costs, and simplify the Priority Mail rate structure. See 39 C.F.R. § 3040.181(a). This classification change will not result in the violation of 39 U.S.C § 3633 or associated regulations, as the Postal Service's competitive products are still expected to cover their costs and contribute an appropriate share to institutional costs. See 39 C.F.R. § 3040.181(b)(2). The Postal Service expects this classification change will have a positive impact on users of Priority Mail, and will have a minimal impact on competitors and the broader package market. See 39 C.F.R. § 3040.181(c). While initially successful, RRBs have struggled to gain a foothold in the package market and have not had a clear brand advantage. On the other hand, Priority Mail Cubic has been increasing in popularity and in brand recognition, and we expect most existing RRB customers will utilize Priority Mail Cubic going forward. Priority Mail Cubic offers everything that RRBs do, except for free packaging. If these customers choose not to use Priority Mail Cubic, other Priority Mail

price categories remain an attractive alternative. Overall, customers will benefit from a more simplified Priority Mail rate structure and enhanced brand clarity from this change.

Zone L,1,2 Split into Zone 1 and Zone 2 (Multiple Products)

For several of its competitive products, the Postal Service will be splitting out the existing “Zone L,1,2” category into separate Zone 1 and Zone 2 categories. The Local Zone will be eliminated. This change will create consistency in the Postal Service’s price charts across all of its competitive products. See 39 C.F.R. § 3040.181(a). This classification change will not result in the violation of 39 U.S.C § 3633 or associated regulations, as the Postal Service’s competitive products are still expected to cover their costs and contribute an appropriate share to institutional costs. See 39 C.F.R. § 3040.181(b)(2). Finally, the Postal Service expects this classification change will have a positive impact on its customers, and will have a minimal impact on competitors and the broader package market. See 39 C.F.R. § 3040.181(c). Providing consistent Zone 1 and Zone 2 labels across the Postal Service’s competitive products will make it easier for customers to understand the Postal Service’s pricing structure. The current Local Zone for these products will continue to be serviced via USPS Connect Local.

Label Delivery Service Introduced

The Postal Service will be introducing a new price category under the Competitive Ancillary Services product for a new Label Delivery Service. Through this service, postal customers can request return / outbound label delivery to residential and business addresses for a \$1.25 fee. This new service is designed to meet customer needs and provide a convenient option for customers to get labels for their return shipments. See 39 C.F.R. § 3040.181(a). This classification change will not result in

the violation of 39 U.S.C § 3633 or associated regulations, as the Postal Service's competitive products are still expected to cover their costs and contribute an appropriate share to institutional costs. See 39 C.F.R. § 3040.181(b)(2). Label Delivery Service will be part of the Competitive Ancillary Services product, and as demonstrated in the Postal Service's workpapers, that product will continue to cover its costs. As discussed above, the Postal Service expects this classification change will have a positive impact on its customers, as it will meet customer needs and facilitate returns shipments. This new service and small fee will have a minimal impact on competitors and the broader package market. See 39 C.F.R. § 3040.181(c). Similar label delivery services are offered by the Postal Service's competitors, at prices comparable to our proposed \$1.25 per label fee.

Elimination of Priority Mail Express International (PMEI) Offered at a Discount at Retail

For Priority Mail Express International, weight-rated items tendered at retail counters will no longer be offered at prices equivalent to Priority Mail International for certain destinations and weight steps subject to certain requirements and conditions. As noted in USPS-FY21-NP9 in Docket No. ACR2021, the PMEI discount at retail did not result in an improvement in cost coverage for the PMEI product, and thus the Postal Service is eliminating it. See 39 C.F.R. § 3040.181(a). Based on the information in USPS-FY21-NP9, the elimination of PMEI Offered at a Discount at Retail will not result in the violation of any standards of 39 U.S.C. 3633 or associated regulations, as the amount of revenue implicated by this change is quite small in relation to the pool of competitive products as a whole, and the Postal Service's competitive products are still

expected to cover their costs and contribute an appropriate share to institutional costs. See 39 C.F.R. § 3040.181(b)(2). The Postal Service does not expect this classification change to have a significant impact on customers or competitors, because the discount at retail was applicable to only a handful of destinations and was not advertised. See 39 C.F.R. § 3040.181(c).

Elimination of Origin Zones for Priority Mail International to Canada

The zoned prices based on origin ZIP Code for Priority Mail International destined to Canada will be collapsed into a single country group for Priority Mail International to Canada, and the related fee for the International Service Center (ISC) zone chart for Priority Mail International pieces destined to Canada will be eliminated. This classification change will simplify the pricing structure for Priority Mail International. See 39 C.F.R. § 3040.181(a). This classification change will not result in the violation of any standards of 39 U.S.C. 3633 or associated regulations, because Priority Mail International will cover its costs. As the amount of revenue implicated by this change is quite small in relation to the pool of competitive products as a whole, and the Postal Service's competitive products are still expected to cover their costs and contribute an appropriate share to institutional costs. See 39 C.F.R. § 3040.181(b)(2). Some customers are likely to benefit from the simplified pricing structure. This classification change is likely to have a small impact on competitors and the broader package market. See 39 C.F.R. § 3040.181(c).

The Governors' Decision and record of proceedings will be published in the *Federal Register* in accordance with 39 U.S.C. § 3632(b)(2).

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON CHANGES
IN RATES AND CLASSIFICATIONS OF GENERAL APPLICABILITY FOR COMPETITIVE
PRODUCTS (GOVERNORS' DECISION NO. 22-6)**

November 9, 2022

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish prices and classifications of general applicability for the Postal Service's competitive products. The changes are described generally below, with a detailed description of the changes in the Postal Service's associated draft Mail Classification Schedule change document. That document contains the draft Mail Classification Schedule sections with classification changes in legislative format, and new prices displayed in the price charts.

As shown in the nonpublic annex being filed under seal herewith, the changes we establish should enable each competitive product to cover its attributable costs (39 U.S.C. § 3633(a)(2)) and should result in competitive products as a whole complying with 39 U.S.C. § 3633(a)(3), which, as implemented by 39 C.F.R. § 3035.107(c), requires competitive products collectively to contribute a minimum of 10.4 percent to the Postal Service's institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)). We therefore find that the new prices and classification changes are in accordance with 39 U.S.C. §§ 3632–3633 and 39 C.F.R. §§ 3035.102 and 104.

I. Domestic Products

A. Priority Mail Express

Overall, the Priority Mail Express price change represents a 6.6 percent increase. The Commercial Base and Commercial Plus price categories, which have had equivalent prices since 2016, will be consolidated into one Priority Mail Express Commercial price category for 2023. Also new for 2023, the zoned prices for the existing "Local, 1, 2" Zone will be differentiated. The Local zone will be eliminated, and separate prices will be established for Zone 1 and Zone 2. No other structural changes are proposed. Dimensional weighting, which was introduced for all zones in 2019, will continue in 2023.

Retail prices will increase an average of 6.7 percent. The price for the Retail Flat Rate Envelope, a significant portion of all Priority Mail Express volume, will increase to \$28.75, with the Legal Size and Padded Flat Rate Envelopes priced at \$28.95 and \$29.45, respectively.

The newly consolidated Commercial price category will increase 6.0 percent on average. Commercial prices will, on average, reflect a 12.5 percent discount off of Retail prices. Nonstandard Fees (NSFs) are changing for our full network products for 2023. Priority Mail Express will see an increase in NSFs, while ground products will see a price decrease in NSFs.

B. Priority Mail

On average, the Priority Mail prices will be increased by 5.5 percent. Similar to Priority Mail Express, the Commercial Base and Commercial Plus price categories, which have had equivalent prices since 2019, will be consolidated into one Priority Mail Commercial price category for 2023. Dimensional weighting, which was extended to all zones in 2019, will continue in 2023. New for 2023, the Priority Mail Regional Rate Boxes will be eliminated because of low usage and to avoid product redundancies. Also new for 2023, the zoned prices for the existing "Local, 1, 2" Zone will be differentiated. The Local zone will be eliminated, and separate prices will be established for Zone 1 and Zone 2. No other structural changes are proposed.

Retail prices will increase by an average of 6.8 percent. Retail Flat Rate Box prices will be: Small, \$10.20; Medium, \$17.10; Large, \$22.80 and Large APO/FPO/DPO, \$21.20.

Thus, the Large APO/FPO/DPO Flat Rate Box will be \$1.60 less than the Large Flat Rate Box. The regular Flat Rate Envelope will be priced at \$9.65, with the Legal Size and Padded Flat Rate Envelopes priced at \$9.95 and \$10.40, respectively.

The newly consolidated Commercial price category will increase by 3.6 percent on average. Commercial prices will, on average, reflect a 20.1 percent discount off of Retail prices. Nonstandard Fees (NSFs) are changing for our full network products for 2023. Priority Mail will see an increase in NSFs, while ground products will see a price decrease in NSFs.

C. Parcel Select

On average, Parcel Select prices as a whole will increase 5.1 percent. Prices for destination-entered non-Lightweight Parcel Select, the Postal Service's bulk ground shipping product, will increase 5.1 percent on average. For destination delivery unit (DDU) entered parcels, the average price increase is 5.6 percent. For destination sectional center facility (DSCF) destination entered parcels, the average price increase is 4.7 percent. For destination network distribution center (DNDC) parcels, the average price increase is 5.0 percent. Prices for Parcel Select Lightweight will increase by 6.1 percent on average. Prices for USPS Connect Local, introduced in 2022, will remain unchanged for 2023. Finally, Parcel Select Ground, which is slated to be eliminated later in 2023, will see very minor price adjustments in certain cells, with a zero percent average change. Dimensional weighting, which was introduced for all zones in 2019, will continue in 2023.

New for 2023, the zoned prices for the existing "Local, 1, 2" Zone will be differentiated. The Local zone will be eliminated, and separate prices will be established for Zone 1 and Zone 2. No other structural changes are proposed. Nonstandard Fees (NSFs) are changing for our full network products for 2023. Ground products will see a price decrease in NSFs.

D. First-Class Package Service

First-Class Package Service (FCPS) is currently positioned as a lightweight (less than one pound) offering primarily used by businesses for fulfillment purposes. Later in 2023, the Postal Service plans to enhance and expand the FCPS product up to seventy pounds, but for January 2023, FCPS will remain only a lightweight offering. Overall,

FCPS prices will increase 7.8 percent on average, with a 6.9 percent increase for FCPS-Retail and an 8.0 percent increase for FCPS-Commercial. New for 2023, the zoned prices for the existing "Local, 1, 2" Zone will be differentiated. The Local zone will be eliminated, and separate prices will be established for Zone 1 and Zone 2. No other structural changes are proposed. Nonstandard Fees (NSFs) are changing for our full network products for 2023. Ground products will see a price decrease in NSFs.

E. USPS Retail Ground

USPS Retail Ground, which is also slated for removal later in 2023 as part of the Postal Service's expansion of FCPS and product simplification efforts, will remain on the competitive product list in January 2023. USPS Retail Ground prices will increase 6.4 percent overall on average. New for 2023, the zoned prices for the existing "Local, 1, 2" Zone will be differentiated. The Local zone will be eliminated, and separate prices will be established for Zone 1 and Zone 2. No other structural changes are proposed. Nonstandard Fees (NSFs) are changing for our full network products for 2023. Ground products will see a price decrease in NSFs.

F. Domestic Extra Services

Premium Forwarding Service (PFS) prices will increase 6.5 percent on average in 2023. The retail counter enrollment fee will increase to \$25.45. The online enrollment option, introduced in 2014, will increase to \$23.40. The weekly reshipment fee will increase to \$25.45. PFS Local, which was introduced in 2019 for P.O. Box customers, will have an increased reshipment fee of \$25.45. Prices for Adult Signature service will increase to \$9.05 for the basic service and \$9.35 for the person-specific service. Address Enhancement Service prices will remain the same for 2023. Competitive Post Office Box prices will be increasing 6.5 percent on average, within the existing price ranges. Package Intercept Service will increase to \$17.00. The Pickup On Demand fee will increase to \$26.50 for 2023. Premium Data Retention and Retrieval Service (USPS Tracking Plus), which was introduced in 2020, will not see a price change in 2023. New for 2023, the Postal Service is introducing a new Label Delivery Service under the Competitive Ancillary Services product, whereby residential and business customers can request return label delivery for a \$1.25 fee for certain products.

II. International Products

A. Expedited Services

International expedited services include Global Express Guaranteed (GXG) and Priority Mail Express International (PMEI). Overall, GXG prices will rise by 4.9 percent, and PMEI will be subject to an overall 6.0 percent increase. Commercial Plus prices will be equivalent to Commercial Base.

B. Priority Mail International

The overall increase for Priority Mail International (PMI) will be 6.0 percent. Commercial Plus prices will be equivalent to Commercial Base. For Priority Mail Express International, weight-rated items tendered at retail counters will no longer be offered at prices equivalent to Priority Mail International for certain destinations and weight steps subject to certain requirements and conditions. The zoned prices based on origin ZIP Code for Priority Mail International destined to Canada will be collapsed into a single country group for Priority Mail International to Canada, and the related fee for the International Service Center (ISC) zone chart for Priority Mail International pieces destined to Canada will be eliminated.

C. International Priority Airmail and International Surface Air Lift

Published prices for International Priority Airmail (IPA) and International Surface Air Lift (ISAL) will increase by 3.5 percent and 12.0 percent, respectively.

D. Airmail M-Bags

The published prices for Airmail M-Bags will increase by 6.4 percent.

E. First-Class Package International Service™

The overall increase for First-Class Package International Service (FCPIS) prices will be 6.5 percent. Commercial Plus prices will be equivalent to Commercial Base.

F. International Ancillary Services and Special Services

Prices for several international ancillary services will be increased, with an overall increase of 12.2 percent.

ORDER

The changes in prices and classes set forth herein shall be effective at 12:01 A.M. on January 22, 2023. We direct the Secretary to have this decision published in the *Federal Register* in accordance with 39 U.S.C. § 3632(b)(2) and direct management to file with the Postal Regulatory Commission appropriate notice of these changes.

Retail Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Loyalty Program

Upon the initiation of the Loyalty Program, all USPS business customers who use Click-N-Ship will be automatically enrolled in the Basic tier of the Loyalty Program, thereby earning a \$40 credit for every \$500 combined spent at Priority Mail Express Retail and Priority Mail Retail rates.

Beginning on January 1, 2021, and on every January 1 thereafter, all USPS business customers who use Click-N-Ship will be enrolled in one of the following three tiers of the Loyalty Program, based on their combined shipping spend at Priority Mail Express Retail and Priority Mail Retail rates in the previous calendar year, as follows:

- Basic (no minimum spend):
Earn \$40 credit for every \$500 spent
- Silver (at least \$10,000 spend):
Earn \$50 credit for every \$500 spent
- Gold (at least \$20,000 spend):
Qualify for Commercial Base Pricing

In the first year of the Loyalty Program, any new USPS business customer who uses Click-N-Ship will receive a one-time \$40 "Welcome Bonus" credit upon shipping at least \$500 combined at Priority Mail Express Retail and Priority Mail Retail rates.

All participants in the Loyalty Program will be eligible to receive an additional one-time \$20 credit for shipping during the first two months of the program, which will be applied once participants ship at least \$500 combined at Priority Mail Express Retail and Priority Mail Retail rates.

All credits must be redeemed within one year from the date of issuance.

Commercial (Base and Plus) Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Commercial Plus Dimensional Weight

~~In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.~~

~~For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.~~

~~For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.~~

Pickup On Demand Service

Retail Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Loyalty Program

Upon the initiation of the Loyalty Program, all USPS business customers who use Click-N-Ship will be automatically enrolled in the Basic tier of the Loyalty Program, thereby earning a \$40 credit for every \$500 combined spent at Priority Mail Express Retail and Priority Mail Retail rates.

Beginning on January 1, 2021, and on every January 1 thereafter, all USPS business customers who use Click-N-Ship will be enrolled in one of the following three tiers of the Loyalty Program, based on their combined shipping spend at Priority Mail Express Retail and Priority Mail Retail rates in the previous calendar year, as follows:

- Basic (no minimum spend):
Earn \$40 credit for every \$500 spent
- Silver (at least \$10,000 spend):
Earn \$50 credit for every \$500 spent
- Gold (at least \$20,000 spend):
Qualify for Commercial ~~Base~~ Pricing

In the first year of the Loyalty Program, any new USPS business customer who uses Click-N-Ship will receive a one-time \$40 "Welcome Bonus" credit upon shipping at least \$500 combined at Priority Mail Express Retail and Priority Mail Retail rates.

All participants in the Loyalty Program will be eligible to receive an additional one-time \$20 credit for shipping during the first two months of the program, which will be applied once participants ship at least \$500 combined at Priority Mail Express Retail and Priority Mail Retail rates.

All credits must be redeemed within one year from the date of issuance.

Commercial (Base and Plus) Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

Commercial Plus Dimensional Weight

In Zones 1-9 (including local), parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

b. Dimensional Weight

Parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the

associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

c. Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

d. Forwarding and Returns

Parcel Select pieces that are forwarded on request of the addressee or forwarded or returned on request of the mailer will be subject to the applicable Parcel Select Ground price, plus \$3.00, when forwarded or returned. For customers using Address Correction Service with Shipper Paid Forwarding/Return, and also using an IMpb, the additional fee will be \$2.50.

c. Dimensional Weight

Parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the

associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

d. Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

e. Forwarding and Returns

Parcel Select pieces that are forwarded on request of the addressee or forwarded or returned on request of the mailer will be subject to the applicable Parcel Select Ground price, plus \$3.00, when forwarded or returned. For customers using Address Correction Service with Shipper Paid Forwarding/Return, and also using an IMpb, the additional fee will be \$2.50.

c. Dimensional Weight

Parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the

associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

d. Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

e. Forwarding and Returns

Parcel Select pieces that are forwarded on request of the addressee or forwarded or returned on request of the mailer will be subject to the applicable Parcel Select Ground price, plus \$3.00, when forwarded or returned. For customers using Address Correction Service with Shipper Paid Forwarding/Return, and also using an IMpb, the additional fee will be \$2.50.

c. Dimensional Weight

Parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

d. Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

e. Forwarding and Returns

Parcel Select pieces that are forwarded on request of the addressee or forwarded or returned on request of the mailer will be subject to the applicable Parcel Select Ground price, plus \$3.00, when forwarded or returned. For customers using Address Correction Service with Shipper Paid Forwarding/Return, and also using an IMpb, the additional fee will be \$2.50.

Limited Overland Routes pieces exceeding 84 inches in length and girth combined (but not more than 108 inches) and weighing less than 20 pounds are subject to a price equal to that for a 20-pound parcel for the zone to which the parcel is addressed.

Oversized Pieces

Regardless of weight, any piece that measures more than 108 inches (but not more than 130 inches) in length plus girth must pay the oversized price. As stated in the Domestic Mail Manual, any piece that is found to be over the 70 pound maximum weight limitation is nonmailable, will not be delivered, and may be subject to the \$100.00 overweight item charge.

Pickup On Demand Service

Add ~~\$25.00~~26.50 for each Pickup On Demand stop.

Dimensional Weight

In Zones 1-8, parcels exceeding one cubic foot are priced at the actual weight or the dimensional weight, whichever is greater.

For box-shaped parcels, the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) of the parcel, and dividing by 166.

For irregular-shaped parcels (parcels not appearing box-shaped), the dimensional weight (pounds) is calculated by multiplying the length (inches) times the width (inches) times the height (inches) at the associated maximum cross-sections of the parcel, dividing by 166, and multiplying by an adjustment factor of 0.785.

These dimensional weight rules do not apply to the Limited Overland Routes price category.

IMpb Noncompliance Fee

Add \$0.25 for each IMpb-noncompliant parcel paying commercial prices.

Nonstandard Fees

Add the following fees to parcels that exceed certain dimensions, as specified below:

Priority Mail Express International Offered at a Discount at Retail

If a customer requests PMI at a Postal Service retail counter for an item for which postage has not been previously paid, weight-rated PMEI may be offered to certain destinations, for certain weight steps, at a discounted price equivalent to the corresponding weight-based rate in the PMI Parcels Retail price table (2315.6), if all PMEI eligibility requirements are met and the Postal Service determines that service can be improved and/or the PMEI destination-country delivery costs are lower than PMI destination-country delivery costs.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3011.201, the Postal Service hereby applies for non-public treatment of the attributable cost, contribution, and cost coverage data in the unredacted version of the annex to Governors' Decision No. 22-6, as well as the supporting materials for those data, which include disaggregated product volume, weight, and revenue distribution information by price cell. The materials consist of spreadsheets that contain calculations to determine the weighted average price increase and cost coverage for each competitive product within the scope of this docket. The Postal Service hereby furnishes below the justification for this application as required by each subsection of 39 C.F.R. § 3011.201(b). For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials. The Postal Service is concurrently filing redacted versions of these files, where it has determined redactions to be practicable.

(1) The rationale for claiming that the materials are non-public, including the specific statutory provision(s) supporting the claim, and an explanation justifying application of the provision(s) to the materials.

The materials designated as non-public consist of information of a commercial nature as well as third-party business information that, under good business practice, would not be disclosed to the public. In the Postal Service's opinion, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3) and (b)(4).¹ Because the portions of the materials filed non-publicly

¹ In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury,

in this docket by the Postal Service fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

- (2) A statement of whether the submitter, any person other than the submitter, or both have a proprietary interest in the information contained within the non-public materials, and the identification(s) specified in paragraphs (b)(2)(i) through (iii) of this section (whichever is applicable). For purposes of this paragraph, identification means the name, phone number, and email address of an individual.²**

The Postal Service also believes that FedEx Express may have a proprietary interest in some of the data concerning Global Express Guaranteed (GXG) in the materials submitted.³ The Postal Service will undertake to inform FedEx Corporation, in compliance with 39 C.F.R. § 3011.200(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service identifies James H. Ferguson, Corporate Vice President, Transactions, Benefits, and Employee Relations Law, FedEx Corporation & General Counsel, FedEx

such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² Section 3011.201(b)(2) further states the following:

(i) If the submitter has a proprietary interest in the information contained within the materials, identification of an individual designated by the submitter to accept actual notice of a motion related to the non-public materials or notice of the pendency of a subpoena or order requiring production of the materials.

(ii) If any person other than the submitter has a proprietary interest in the information contained within the materials, identification of each person who is known to have a proprietary interest in the information. If such an identification is sensitive or impracticable, an explanation shall be provided along with the identification of an individual designated by the submitter to provide notice to each affected person.

(iii) If both the submitter and any person other than the submitter have a proprietary interest in the information contained within the non-public materials, identification in accordance with both paragraphs (b)(2)(i) and (ii) of this section shall be provided. The submitter may designate the same individual to fulfill the requirements of paragraphs (b)(2)(i) and (ii) of this section.

³ Although FedEx Express might have a proprietary interest in data reflecting volume or weights for GXG, the Postal Service maintains that the Postal Service is the only party with a proprietary interest in revenue data reflecting GXG transactions between the Postal Service and its customers.

Corporate Services, Inc., as the appropriate contact on behalf of FedEx Corporation.

Mr. Ferguson's telephone number is (901) 434-8600, and his email address is jhferguson1@fedex.com.

Additionally, the Postal Service believes that PNC Global Transfers may have a proprietary interest in some of the data in the materials submitted. The Postal Service will undertake to inform PNC Global Transfers, in compliance with 39 C.F.R. § 3011.200(b), of the nature and scope of this filing and its ability to address its confidentiality concerns directly with the Commission. The Postal Service identifies Aurora Garza Hagan, Chief Executive Officer, PNC Global Transfers, Inc., as the appropriate contact on behalf of PNC Global Transfers. Ms. Hagan's telephone number is 281-765-1525, and her email address is Aurora.Garza@pncglobaltransfers.com.

The Postal Service believes that a few foreign postal operators may have a proprietary interest in some of the data in the materials submitted. The Postal Service, in conjunction with the United States Department of State, requested that the Universal Postal Union (UPU) International Bureau (IB) issue a Circular notice to all countries and designated operators informing each of its rights under 39 C.F.R. § 3007.204. This notification was published by the IB in Circular No. 178 on November 8, 2021. Specifically, the notice informs all countries and designated operators that the Postal Service will be regularly submitting certain business information to the Commission. UPU-designated foreign postal operators (FPOs) have a proprietary interest in information relating to their particular flows. The circular includes information on how third parties may address any confidentiality concerns with the Commission.

- (3) A description of the information contained within the materials claimed to be non-public in a manner that, without revealing the information at issue, would allow the Commission to thoroughly evaluate the basis for the claim that the information contained within the materials are non-public.**

The redacted information consists of the projected FY 2023 attributable cost, contribution, and cost coverage for each competitive product that is the subject of this docket. The Postal Service has filed information concerning the calculations used to develop the weighted average price increase by product and cost coverage. Protected information in the spreadsheets includes volume and revenue by price cell (weight increment and zone), as well as product-specific cost data and other supporting data. Such information for competitive product categories is commercially sensitive at the disaggregated, cell-specific level shown in the spreadsheets.

- (4) Particular identification of the nature and extent of the harm alleged and the likelihood of each harm alleged to result from disclosure.**

If competitors of the Postal Service were to have access to this information, they would likely focus their marketing and price cutting efforts on the Postal Service's most profitable products. This will lead to erosion of contribution of these products through lost sales and/or the need to lower prices to compete. Postal product cost and contribution information would provide suppliers of postal transportation and other services with information they could use to seek higher rates for services they provide. This would lead to higher postal costs and loss of contribution. Although the extent of the commercial harm is difficult to quantify, given that Shipping Services is a multi-billion dollar enterprise, even a small change in market share, prices, or costs could lead to millions of dollars in lost revenue, higher costs, and lower contribution margins. It is

highly likely that if this information were made public, the Postal Service's competitors and suppliers would take advantage of it almost immediately.

Competitors could use the product-specific revenue, pieces, and weight information to analyze the Postal Service's possible market strengths and weaknesses and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Disclosure of this information would also undermine the Postal Service's position in negotiating favorable terms with potential customers, who would be able to ascertain critical information about relevant product trends (e.g., average revenue per piece, average weight per piece).

Disclosure would also expose certain foreign postal operators to the same competitive harms to the extent that a category is associated with a single customer or a small group of customers. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the material filed nonpublicly. Disclosure of statistical and cost information about GXG could limit the ability of FedEx Corporation, a counterparty to a strategic alliance with the Postal Service, to negotiate effectively and could allow competitors to analyze the traffic for a competitive advantage against FedEx Corporation. The more disaggregated nature of the product information in the international context, and the relatively small numbers associated with information make the international data particularly vulnerable to analysis and use by competitors.

(5) At least one specific hypothetical, illustrative example of each alleged harm.

Identified harm: Competitors could use product cost, contribution, or cost coverage information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment.

Hypothetical: Cost, contribution and/or cost coverage information is released to the public and available to a competitor. The competitor assesses the profitability of certain services based on the data released. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service has substantial contribution, thereby hindering the Postal Service's ability to maintain these customers.

Identified harm: Competitors could use disaggregated product volume, weight, and revenue distribution information to assess vulnerabilities and focus sales and marketing efforts to the Postal Service's detriment, and also during negotiations with the Postal Service.

Hypothetical: Disaggregated revenue, volume, and weights contained in the Nonpublic Annex are disclosed to the public. Another delivery service's employee monitors the filing of this information and passes it along to the firm's sales and marketing functions. The competitor assesses the profitability of certain services on a per-piece or per-pound basis or the Postal Service's relative concentration in certain service offerings. The competitor then targets its advertising and sales efforts at actual or potential customers in market segments where the Postal Service appears to have made headway, hindering the Postal Service's ability to reach out effectively to these customers. In addition, a foreign postal operator's employee could monitor the filing of this information and pass the information along to the international postal relations functions of that foreign postal operator. The foreign postal operator assesses the Postal Service's average per-item revenue for categories about which it is negotiating with the Postal Service. Accurately or not, the foreign postal operator uses the average

revenue information as a justification for pricing demands in negotiations. The Postal Service's ability to negotiate suffers as a result.

Identified harm: Public disclosure of information contained in the Nonpublic Annex associated with international delivery services provided in arrangement with specific third parties would be used by those parties' competitors to their detriment.

Hypothetical: A competitor of a foreign post, such as a competing international delivery service obtains information contained in the Nonpublic Annex. The competitor uses the information to assess the market potential and, as a baseline, to negotiate with other parties to develop lower-cost alternatives and undermine the foreign postal operator's market offerings. The same scenario could apply with respect to comparable information for FedEx Corporation concerning GXG.

(6) The extent of the protection from public disclosure alleged to be necessary.

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the market for domestic parcel shipping products and in the market for international delivery products (including both private sector integrators and foreign postal operators), as well as their consultants and attorneys. Additionally, suppliers of transportation or other services to the Postal Service that affect costs for competitive services should not have access to these materials; this restriction should include their consultants and attorneys. Also, the Postal Service believes that foreign postal operators, as well as actual or potential customers of a postal operator for this or similar products should not be provided access to the non-public Excel worksheets.

(7) The length of time for which non-public treatment is alleged to be necessary with justification thereof.

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless otherwise provided by the Commission. 39 C.F.R. § 3011.401(a). However, because the Postal Service's relationships with third parties that may have a proprietary interest in protected materials often continue beyond ten years or decades, the Postal Service intends to oppose requests for disclosure of these materials pursuant to 39 C.F.R. § 3011.401(b-c).

(8) Any other relevant factors or reasons to support the application.

None.

Conclusion

For the reasons discussed in this application, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
